**Subject:** West Lake Tornado Proximity

I thought you might find it of interest to see a map of how close the tornado Wednesday night came to the West Lake / Bridgeton Landfill. The landfill is to the immediate left of the beginning of the tornado's path and is bracketed by Route 180 / St. Charles Road and Old St. Charles Road. The map does not have a scale, but I would guess it was slightly less than 1000 feet away.
